SWAKOPMUND

We travel to **Swakopmund** and upon our arrival in the early afternoon we check into our hotel, after which we have the rest of the day to our own disposal. With palm-lined streets and seaside promenades, Swakopmund is a very popular holiday destination in Namibia. Its pleasant summer climate and long stretched beaches attract anglers and surfers from all over Southern Africa. For the international guest, Swakopmund is a bohemian mix of German correctness and African time, laid back attitude with adrenalin activities, misty mornings and desert heat. It is colorful, it is vibrant, but most of all, it is fun.

DAMARALAND

Heading further north, we travel via the **Brandberg**, Namibia's highest mountain (2.579m), into the Damaraland, one of the least populated and geologically diverse areas in Africa. This harsh, rocky environment is home to the rare desert elephant, the black rhino and free-roaming antelope species. We visit **Twyfelfontein**, a heritage site where Bushman communities engraved and painted over 2500 pictures some 6000 years ago! After a visit to a nearby **Living Museum of the Damara** we proceed on to the **Petrified Forest** - a geological phenomenon depicting the metamorphosis of living material into stone. Here we also encounter the **Welwitschia mirabilis** plant – the oldest living desert plant on Earth.

ETOSHA NATIONAL PARK

The day is devoted purely to the abundant wildlife found in the **Etosha National Park**, which surrounds a parched salt desert known as the Etosha Pan. The park is home to four of the Big Five - elephant, lion, leopard and rhino. The Park was proclaimed as Namibia's first conservation area in 1907 by the then Governor, von Lindequist. Game viewing in the park is largely focussed around the waterholes, some of which are spring fed and some supplied from a borehole, ideal places to sit and watch over 114 different game species, or for an avid birder, in excess of 340 bird species. Popular game species such as giraffe, blue wildebeest, plains and mountain zebra, hyena, lion, leopard, elephant, antelopes such as kudu, oryx, eland, as well as some of the endangered species such as Black rhino, cheetah and the black-faced impala are all found here. An extensive network of roads link the over 30 water holes allowing the visitor an opportunity to do a real game viewing safari over the stretch of the park as each different area will provide different encounters.

Day 6 / Wednesday

ETOSHA NATIONAL PARK

Today your guide again takes you on a game drive in the Etosha National Park. We may encounter animal species we have not seen the previous day and look forward to any new surprises at the different waterholes visited. The Etosha Pan dominates the park. This salt pan desert, which is nearly completely enclosed by the park and is lined by numerous watering holes, is roughly 130 km long and as wide as 50 km in places. During Etosha's notorious dry spells the pan is a deathly place, lying parched and cracked under the molten African sun. It is claimed that game viewing is best during the dry spells as animals will then congregate closer to water. But even in the rainy season the park remains an abundant wildlife haven. You then have the pleasure of experiencing the rebirth of life as the young foals, cubs and chicks are seen frolicking with their parents and the sprouting new green shrubs and grasses create a pleasing green oasis. In the afternoon we travel back to our lodge, where we enjoy the rest of the evening at leisure.
